

The Honourable Michael G. Baker, Q.C., Minister of Finance

September 8, 2006

Overview

The Province of Nova Scotia is forecasting a modest increase in its projected budget surplus for 2006–2007 fiscal year. Improved debt servicing costs and other savings offset lower tobacco revenues and a slight increase in program expenses.

The surplus is expected to increase by \$1.5 million to \$75.0 million, up from \$73.5 million in the 2006–2007 budget. The budget includes a \$57.4 million legislated surplus to be allocated to the debt.

Total revenues are forecast to be \$6.58 billion, a drop of \$8.4 million from budget. This is due primarily to a decrease in tobacco revenues.

The forecast for net debt servicing costs has been reduced by \$9.5 million.

Net program spending is forecast to be \$1.4 million higher than budgeted, as increased highway expenses are offset by savings in other areas.

Fiscal Summary Fiscal 2006–2007			(\$ thousands)
	Budget	Forecast	Increase (Decrease) from Budget
CONSOLIDATED FUND			
Revenue	6,588,838	6,580,487	(8,351)

orecast Update

Revenues

Total revenues are forecast to be \$8.4 million lower than the 2006–2007 budget.

The Province is forecasting a decrease of \$10 million in tobacco revenues. Smoking rates are expected to continue declining, and there are indications of a rise in the illegal distribution of cigarettes, reflecting a national trend.

Interest revenues in Nova Scotia Business Inc. and the Municipal Finance Corporation are projected to increase overall by \$1.5 million. Also, as a result of a slight increase in consumption, motive fuel taxes are forecasted to rise by approximately \$1.0 million.

Petroleum royalties are expected to decline marginally from budget by \$800,000.

Net Program Expenses

Overall, net program spending has increased by \$1.4 million over the 2006–2007 budget.

An increase of \$3.6 in the Department of Transportation and Public Works is a result of \$1.6 million in higher amortization costs related to highway construction and an increase of \$2.0 million in highway maintenance. The forecast for the Public Service entities reflects a reduction of \$2.2 million from the original budget primarily as a result of a reduction in the requirements for strategic investment funds through the payroll rebates at Nova Scotia Business Inc.

Net Program Expenses Fiscal 2006–2007

	Budget	Forecast	Increase (Decrease) from Budget

Total—Net Program Expenses	5,995,507	5,996,856	1,349

Net Income for Government Business Enterprises

Net income from Government Business Enterprises is slightly higher than budgeted. The Halifax-Dartmouth Bridge Commission is forecasting an increase in net income of \$1.5 million, largely due to a reduction in operating costs.

Net Debt Servicing Costs

The latest forecast for net debt servicing costs reflects a net decrease of \$9.5 million compared to budget. The government saved an additional \$5.5 million through the conversion of existing U.S. dollar debt to Canadian dollar debt. There is also a projected increase of \$3.4 million in sinking fund earnings.

Economic Performance and Outlook—2006

There have been no major releases of provincial economic information to warrant a revision to the economic forecast in the July 4, 2006, budget.

The Province continues to anticipate 2.5 per cent growth in real Gross Domestic Product in 2006. This matches the average of private sector forecasts for Nova Scotia as of August 17, 2006.

Inflation has been running at 2.9 per cent up to the end of July, which is consistent with the budget forecast. The current exchange rate is also in line with budget expectations.

According to statistics as of the end of July:

- Nova Scotia labour income remains positive, having expanded 4.0 per cent. However, employment has fallen 0.4 per cent year to date.
- Residential construction investment has been robust, expanding 9.9 per cent. Housing starts are up 14.0 per cent year to date.
- Retail trade has been buoyant, expanding 6.9 per cent.
- International merchandise exports of goods from Nova Scotia are off 7.3 per cent. The recent addition of the Sable compression deck platform is expected to boost natural gas production and exports in the months to come, helping to reverse this trend.
- Manufacturing shipments have fallen 1.0 per cent in the first half of 2006. This sector has been affected by the high exchange rate and the current shutdown at Stora Enso.
