Province of Nova Scotia

Statement of Responsibility for the Consolidated Financial Statements of the Province of Nova Scotia

Responsibility for the integrity and objectivity of the consolidated financial statements of the Province of Nova Scotia rests with the government. These financial statements are prepared by the Controller in accordance with the government's stated accounting policies

The stated accounting policies reflect the accounting principles recommended by the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants (CICA), supplemented where appropriate by other CICA accounting standards or pronouncements.

The consolidated financial statements include a Statement of Financial Position, a Statement of Operations, a Statement of Net Direct Debt, and a Statement of Cash Flow. They present fairly, in all material respects, the financial position and the results of operations for the year ended.

The government is responsible for maintaining a system of internal accounting and administrative controls in order to provide reasonable assurance that transactions are appropriately authorized, assets are safeguarded and financial records are properly maintained.

The Auditor General of Nova Scotia provides an independent opinion on the consolidated financial statements prepared by the government.

Office of the Auditor General

AUDITOR'S REPORT

To the Members of the Legislative Assembly of Nova Scotia

I have audited the consolidated statement of financial position of the Province of Nova Scotia as at March 31, 2003 and the consolidated statements of operations, change in net direct debt and cash flow for the year then ended. These statements are the responsibility of the Government of Nova Scotia, represented by the Minister of Finance. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all material respects, the financial position of the Province of Nova Scotia as at March 31, 2003 and the results of its operations, changes in net direct debt and cash flows for the year then ended in accordance with Canadian generally accepted accounting principles for the public sector.

E. Roy Salmon, FCA Auditor General

Halifax, Nova Scotia July 15, 2003

* Note: Nova Scotia Resources Limited was deemed a discontinued operation during fiscal 2000-2001.

Government Business Enterprises (continued) as at March 31, 2003

Halifax-Dartmouth Bridge Commission

The Commission is incorporated by Special Statute of the Province of Nova Scotia. The purpose of the Commission is to construct, maintain and operate bridges and the necessary approaches across the Halifax Harbour, between the communities of Halifax and Dartmouth, and across the North West Arm. Bridge tolls are regulated by the Nova Scotia Utility and Review Board, a provincially controlled public sector entity. The Commission's fiscal year end is December 31. At March 31, 2003, the Commission owed \$23 million (2002 - \$23 million) to the Province's Consolidated Fund for a revolving line of credit. The Commission records depreciation on bridge assets, buildings and electronic transponders using the straight-line method and uses the declining balance method for all other assets. Included in other assets at December 31, 2002 is a reserve fund in the amount of \$20.8 million, (2001 - \$15.0 million), \$19.4 million (2001 - \$13.6 million) of which is restricted for repayment of principal, interest and fees on Toll Revenue Bonds as establist under the terms of the trust indenture.

Highway 104 Western Alignment Corporation

The Corporation has been established to finance, design, construct, operate and maintain a 45 km stretch of highway between Masstown and Thomson Station in the counties of Colchester and Cumberland, Nova Scotia. The Province of Nova Scotia retains ownership of the highway. The Corporation is granted the right to operate the highway and collect tolls for a 30 year period, pursuant to an agreement dated April 1, 1996, after which time the right will revert to the Province. In addition, the Corporation has entered into an operating agreement with the Province whereby compensation is based on the annual operating budget plus a variable fee. The Corporation's fiscal year end is March 31. The Corporation records depreciation using the sinking fund method. Restricted assets, consisting of short-term investments in the amount of \$16.2 million (2002 - \$12.8 million), are included in other assets. These reserve accounts were established in accordance with trust indenture agreements between the Corporation and bondholders.

The Province of Nova Scotia contributed \$55.0 million toward the construction of the highway, one-half of which was recovered from the Federal Government under the Canada-Nova Scotia Strategic Highway Improvement Program. There were no contributions in the current year.

Nova Scotia Gaming Corporation

The Corporation was incorporated on February 15, 1995 by Chapter 4 of the Gaming Control Act of 1994-95. The purpose of the Corporation is to develop, undertake, conduct and manage casinos and other lottery business on behalf of the Province. The Corporation's fiscal year end is March 31.

The revenues of the Corporation are derived from the two casinos located in Halifax and Sydney and the Atlantic Lottery Corporation. The net balance owing to the Province at March 31, 2003 was \$18.6 million (2002 - \$14.0 million).

The Corporation is required to reimburse the Operator for approved development costs of the Halifax and Sydney casinos. The net present value of the remaing obligations for the casinos is approximately \$76.4 million (2002 - \$90.1 millio

Government Business Enterprises (continued) as at March 31, 2003

Unclaimed prizes are retained by the Corporation in a prize fund for one year from the announced beginning date of the draw. At March 31, 2003, this amounted to \$6.7 million (2002 - \$9.6 million).

Under the terms of their retailer agreements with the Atlantic Lottery Corporation Inc., to contribute 1% of their VLT commission to the Nova Scotia Gaming Foundation. The Corporation has agreed to contribute an amount equal to all contributions made by the VLT retailers.

The Corporation has agreed to an annual contribution of \$1 million to the Department of Health to provide funds for programs related to problem gambling. The Corporation will provide up to \$0.8 million (2003 - \$0.8 million) in funds in fiscal 2003-2004 for the harness racing industry in Nova Scotia.

Nova Scotia Liquor Corporation

The Corporation derives its mandate from the Liquor Control Act, Chapter 260 of the Revised Statues of Nova Scotia, 1989. The Corporation operates retail sales locations across the province. Its fiscal year end is March 31. The net balance owing to the Province at March 31, 2003 was \$9.9 million (2002 - \$6.4 million).

Nova Scotia Resources Limited

The Company, a Provincial Crown Corporation, was established to invest in and manage the Province's participation in petroleum, mineral and energy related projects.

The Province has continued its plan to dispose of the business. During the year the Company sold certain assets for \$4.1 million, resulting in a loss on disposal of \$0.1 million (see Note 3 for details). At December 31, 2002, the Company owed the Province \$0.4 million (2001 - \$4.9 million). In addition, certain assets received by the Company as consideration on the disposal of assets were transferred to 3052155 Nova Scotia Limited, a Provincial Crown Corporation, at cost.

Sydney Steel Corporaiton

The Corporation, a Provincial Crown Corporation established by an Act of the Legislature, operated a steel mill in Sydney, Nova Scotia.

The Corporation's operations have been discontinued and work is underway to dismantle and sell the remaining assets, perform environmental clean-up and conduct development activities for future land use. As the Province has provided \$17 million, or 52% of the Corporation's total revenue, to fund these activities during the fifteen months ending March 31, 2003, the Corporation is not self-sustaining and accordingly is reclassified to a governmental unit from a government business enterprise. The impact of the change in classification results in the operations of the Corporation being accounted for on a full consolidation basis, versus a modified equity basis, beginning this fiscal year. There is no impact on provincial surplus or accumulated deficits as a result of the reclassification.

Notes:

All debt is presented in Canadian dollar equivalents and after giving effect to currency swap contracts itemized in Note 5.

The current and long-term portions of unmatured debt of Governmental Units are shown on the Consolidated Statement of Financial Position with reference to this schedule. Debt of Government Business Enterprises is reflected in the Deficiency in Government Business Enterprises and in further detail in Schedule 4.

As at March 31, 2003, the Consolidated Fund held Sinking Funds and Public Debt Retirement Funds of \$3,445.9 million. These funds were comprised of \$2,916.8 million in Canadian assets and \$529.1 million is US assets (US \$365.7 million converted to CDN\$ based on the underlying securities' effective foreign exchange rates). Total market value of both funds is \$3,730.6 million at year end. During the year, contributions were \$1,235.1 million, total earnings were \$198.5 million and redemptions were \$951.0 million.

Sinking fund assets are recorded at cost, which include premiums and discounts associated with the purchase of these investments. These premiums and discounts are amortized on a straight-line basis over the term of the related investment. The unamortized portion of the premiums and discounts are included as part of the value of the sinking funds. As at March 31, 2003, the unamortized net premium was \$90.7 million.

Province of Nova Scotia - Public Accounts

Unmatured Debt (continued) as at March 31, 2003 (\$ thousands)

Assets consist primarily of debentures of the Provinces and Government of Canada with fixed interest rates ranging from 4.875% to 11.25% for Canadian funds and 6.375% to 9.25% for US funds. Sinking fund payments normally commence on the first anniversary date of the issue of the debenture and are designed to retire the debt over a 20 year period, unless the term of the issue is longer. At year end, the Province held \$1,349.9 million of its own debentures (gross value of \$1,392.5 million) in Sinking Funds and Public Debt Retirement Funds as active investments. These were comprised of \$889.1 million in Canadian assets and \$460.8 million is US assets.

As per the Nova Scotia Power Corporation Privatization Agreement, Nova Scotia Power Finance Corporation provides for defeasance of its debt. The portfolio of defeasance assets consists of Nova Scotia Power Corporation, other Provincial Governments and utilities, Federal US bonds and coupons or residuals. The debt is shown net of defeasance assets on the Statement of Financial Position.

Payments are projected as follows:

	 Ge	overnmental Units	5	-	Government Business Enterprises	Total
	let Principal Repayments	Sinking Fund Requirements	Total Commitment			
2004	\$ 1,013,875 \$	61,911 \$	1,075,786	\$	52,771 \$	1,128,557
2005	1,169,662	60,911	1,230,573		30,013	1,260,586
2006	1,194,065	60,911	1,254,976		28,578	1,283,554
2007	1,053,020	60,912	1,113,932		29,193	1,143,125
2008	619,695	60,911	680,606		17,416	698,022
2009 & thereafter	 7,787,625	582,730	8,370,355	_	157,796	8,528,151
	\$ 12,837,942 \$	888,286 \$	13,726,228	\$	315,767 \$	14,041,995

Net principal repayments is comprised of the principal amount due less available designated sinking funds to retire the debenture.

In addition, the Province has approximately \$2,527.9 million in unrestricted sinking funds which can be used towards the retirement of any unmatured debt. Use of these funds is evaluated annually based on a detailed analysis of cash requirements.

Call, Redemption and Other Features:

Candian debentures include the following redeemable issues:

- \$1,079.4 million in CPP debentures which are redeemable in whole or in part before maturity, on six months notice, at the option of t Minister of Finance of Canada;
- \$150 million, redeemable in whole or in part, on 30 days notice on July 3, 2005, or on any interest payment date thereafter, at the option of the Province;
- \$150 million, redeemable in whole or in part, on 30 days notice on December 12, 2005, or on any interest payment date thereafter, at the option of the Province;
- \$277 million in promissory notes, redeemable in whole but not in part, on the initial redemption date and on each redemption date thereafter, on 15 days notice, at the option of the Province.

Japanese Yen debentures include 15,000 million yen, redeemable in whole but not in part, on not less than 30 days notice nor more than 60 days notice on August 25, 2004 or on August 25, 2009. These debentures have been fully converted to Canadian equivalents via derivative instruments.

Interest rates shown for the Canadian and US debentures reflect the fixed rates only. There are debentures which have floating and step-up rates. Floating interest rates are adjusted on either a monthly or quarterly basis. Step-up rates are adjusted per the individual promissory note step-up schedules.

Housing Development Corporation

Mortgages and notes payable are secured by an assignment of mortgages receivable and investments in social housing.

Highway 104 Western Alignment Corporation

In relation to its senior toll bonds, the Corporation has provided an assignment of all the present and future property and assets, including rights to operate the facility, and a security interest in the Debt Service Reserve Account and the Major Maintenance Reserve Account.

In relation to its junior toll bonds, the Corporation has assigned a second charge security interest in all security pledged to the senior toll revenue bondholders.

Halifax-Dartmouth Bridge Commission

The Commission's toll bonds are secured by an assignment of revenues of the Commission; subject to the prior payment of operating, maintenance and administrative expenses, and the maintenance of certain reserve funds by the Commission.

increase (Decrease) in Net Dook value	^ه =	12,449 \$	00,072 \$	17,003 \$	(33)\$	222 \$	(20,309)\$	57,155 \$	(11,313)\$	109,577 \$	130,739

Amortization is calculated on a declining balance basis for assets of the Consolidated Fund. The amortization percentages of the more common tangible capital assets are: building (5%); machinery, computers and equipment (20%-50%); ferries (20%); vehicles (30%); and roads, bridges & highways (5-30%). Capital leases are amortized on a straight-line basis over the length of each lease.

Amortization is generally calculated on a straight-line basis for assets of entities consolidated with the Consolidated Fund. The estimated useful lives of the more common tangible capital assets are: buildings (including leasehold improvements) and land improvements (2-50 years); machinery, computers and equipment (3-50 years); and vehicles (3 years). Capital leases are amortized on a straight-line basis, generally over a 5 to 20 year term.

Social Housing Assets relate to the Housing Development Corporation. This entity does not track accumulated amortization separately so the closing cost of these assets is the net carrying value of the assets. Social Housing assets are amortized using the sinking fund method.

Included in the closing cost of the various classes as of March 31, 2003, are costs for assets under construction which have not started to be amortized. These costs (\$ thousands) include buildings - \$68,744; machinery, computers and equipment - \$16,608; ferries - \$42; capital leases - \$969; and roads, bridges & highways - \$28,223.

PROVINCE OF NOVA SCOTIA Notes to the Consolidated Financial Statements March 31, 2003

1. FINANCIAL REPORTING AND ACCOUNTING POLICIES

These financial statements are prepared in accordance with Canadian generally accepted accounting principles for the public sector, which for purposes of the Province's financial statements are represented by accounting recommendations of the Public Sector Accounting Board (PSAB) of the Canadian Institute of Chartered Accountants (CICA), supplemented where appropriate by other CICA accounting standards or pronouncements.

These consolidated financial statements have been prepared using the following significant accounting policies:

a) The Government Reporting Entity

The government reporting entity is comprised of the Consolidated Fund, other Governmental Units, Government Business Enterprises, Government Partnership Arrangements and Government Business Partnership Arrangements. This represents the entities which are controlled by the government. Control is defined as the power to govern the financial and operating policies of another organization with expected benefits or the risk of loss to the government from the other organization's activities. Control exists regardless of whether the government chooses not to exercise its power to govern so long as it has the ability to govern. Control must exist at the financial statement date, without the need to amend legislation or agreements.

Trusts administered by the Province are excluded from the reporting entity and are disclosed separately on the Statement of Financial Position for information purposes only.

b) Principles of Consolidation

A Governmental Unit is a government organization that is not a Government Business Enterprise. Governmental Units include government departments, public service votes, funds, agencies, service organizations, boards, government not-for-profit organizations and government business-type organizations. The accounts of Governmental Units are consolidated on a line-by-line basis after adjusting the accounting policies to be consistent with those described in Note 1(c), with the exception of Tangible Capital Assets. Significant inter-organization accounts and transactions are eliminated.

A Government Business Enterprise is a self-sustaining organization which has the financial and operating authority to sell goods and services to individuals and non-government organizations as its principal activity and source of revenue. Government Business Enterprises have been accounted for on the modified equity basis which does not require any accounting policy adjustments. Their net equity is included in these consolidated financial statements in the Statement of Financial Position. Their net income and net loss are shown as separate line items in the Statement of Operations.

A Government Partnership is a contractual arrangement between the government and a party or parties outside the reporting entity. The partners have significant clearly defined common goals, make a financial investment in the partnership, share control of decision making, and share, on an equitable basis, the significant risks and benefits associated with the operations of the government partnership. Where significant, government's interest in partnerships is accounted for using proportionate consolidation.

A Government Business Partnership is a government partnership that sells goods and services to individuals and organizations outside the partnership as its principal activity, and has been delegated the financial and operational authority to carry on a business. Where significant, government's interest in a business partnership is accounted for on the proportionate modified equity basis.

A complete listing of the organizations within the Government Reporting Entity is provided in Schedule 9.

Province of Nova Scotia - Public Accounts

Financial results from fiscal year end to March 31, 2003, for Government Business Enterprises whose fiscal year ends are not March 31, were not significant to these consolidated financial statements so they have not been adjusted. Other adjustments have been made, as noted on Schedule 4, regarding Nova Scotia Resources Limited.

c) Significant Accounting Policies

Revenues

Revenues are recorded on the accrual basis. The main components of revenue are interest, various taxes and legislated levies. Revenues from Personal and Corporate Income Taxes, Harmonized Sales Taxes, Federal Equalization payments and the Canada Health and Social Transfers (CHST) are accrued in the year earned based upon estimates using statistical models. These federal revenues are recorded at the net amount estimated, after considering adjustments for tax credits and administrative costs related to the collection and processing performed by the federal government.

Net Expenses

Net expenses are recorded on the accrual basis and include the cost of supply inventories purchased during the year by the Consolidated Fund. Net expenses include recoveries and fees which are directly related to the expenses and are not normally considered to be revenues. Recoveries and fees may include insignificant amounts from Governmental Units. Gross expenses, before the impact of recoveries, are reported in Note 9 - Net Expenses By Object. Grants are recognized in the period during which both payment is authorized and any eligibility criteria are met. Provisions are made for probable losses on certain loans, investments, loan guarantees, accounts receivable, advances, forgivable loans and for contingent liabilities when it is likely that a liability exists and the amount can be reasonably determined. These provisions are updated as estimates are revised, at least annually.

Financial Assets

Cash and Short-term Investments are recorded at cost which approximates market value. Investments normally include R-1 (low to high) rated Federal and Provincial Government Bills or Promissory Notes, Bankers' Acceptance, term deposits and commercial paper with fixed interest rates averaging 3.0% at year end and are generally for terms of 1 to 90 days.

Accounts Receivable and Advances are recorded at the principal amount less valuation allowances.

Inventories for Resale are held for sale in the ordinary course of operations and are recorded at the lower of cost and ret realizable value.

Loans are recorded at cost less adjustments for concessionary assistance and any prolonged impairment in value. Concessionary assistance consists of subsidies provided by the Province and is recognized as an expense at the date of issuance of the loan. Any loan write offs must be approved by the Governor-in-Council. Loans usually bear interest at approximate market rates and normally have fixed repayment schedules.

Investments are recorded at cost less adjustments for concessionary assistance and any prolonged impairment in value. Concessionary assistance consists of subsidies provided by the Province and is recognized as an expense at the date of issuance of the investment. Any write-down of an Investment to reflect a loss in value is not reversed if there is a subsequent increase in value.

Liabilities

Bank Advances and Short-term Borrowings on average are generally for less than 180 days and are recorded at cost which approximates market value. Short-term Borrowings had a weighted average interest rate of 2.92% at year end on CDN dollar borrowings.

Unmatured Debt consists of debentures and various loans in Canadian and foreign currencies and capital leases. Debt is recorded at par, net of sinking funds.

Sinking Fund and Public Debt Retirement Fund objectives are to manage short-term liquidity, to manage interest rate and currency exposure and to assist in the orderly refunding of maturing debt while maximizing the long-term investment return to the Province. Sinking fund payments usually commence on the first anniversary date of the issue and are generally designed to retire the debt over a 20 year period or the term of the issue. Sinking Fund and Public Debt Retirement Fund investments are recorded at cost and consist primarily of debentures of the Province of Nova Scotia, other provincial governments and the Government of Canada. Sinking funds for US currency debentures are invested in US dollars denominated investments. Premiums and discounts on sinking funds are deferred and amortized over the life of the investment. Amortization and realized gains and losses for premiums and discounts relating to sinking fund balances and instalments are netted against sinking fund earnings.

Unamortized Foreign Exchange Translation Gains and Losses result when debentures payable in foreign currencies, accrued interest thereon, and sinking funds invested in foreign currencies are translated into Canadian dollars at the rate of exchange in effect at March 31. Foreign exchange gains and losses on the translation of foreign currency are amortized on a straight-line basis over the remaining term of the related monetary issue.

Premiums and Discounts, as well as underwriting commissions relating to the issuance of debentures, are deferred and amortized over the term of the related investment. Amortization and realized foreign exchange gains and losses, premiums and discounts relating to debt balances and serial retirements are charged to debt servicing costs. Amortization and realized foreign exchange gains and losses relating to sinking fund balances and instalments are netted against sinking fund earnings.

Pension, Retirement and Other Obligations include various employee benefits. For purposes of these consolidated financial statements, the Province's pension liabilities are calculated using an accrued benefits actuarial method and using accounting assumptions which reflect the Province's best estimates of performance over the long-term. The net pension liability represents accrued pension benefits less the market related value of pension assets (if applicable) and the balance of unamortized experience gains and losses. The market related values are determined in a rational and systematic manner so as to recognize asset market value gains and losses over a five year period. The Public Service Superannuation Plan, Teacher's Pension Plan, Sydney Steel Corporation Pension Fund and the Long-term Disability Plan have separate funds. The Province also maintains accounts within the Consolidated Fund for other pension and retirement obligations as described in Note 6. Pension expense includes the value of pension benefits earned in the period and the amortization of experience gains and losses. Related interest is charged or credited to debt servicing costs. Other obligations include self-insured workers' compensation and long-term disability benefits. These amounts are assessed annually at March 31 and any adjustments are charged or credited to expenses.

Net Direct Debt

Net Direct Debt represents the direct liabilities of the Province less financial assets and unamortized foreign exchange translation gains and losses and premiums and discounts on outstanding debenture issues.

Non-Financial Assets

Tangible Capital Assets have useful lives extending beyond the accounting period, are held for use in the production or supply of goods and services and are not intended for sale in the ordinary course of operations. Tangible capital assets are recorded at net historical cost (or estimated cost when the actual cost is unknown) and include all costs directly attributable to the acquisition, construction, development and installation of the tangible capital asset, except interest. Tangible Capital Assets include land, buildings, major equipment, computer equipment and software, vehicles, ferries, roads, highways, and bridges. Tangible capital assets do not include intangibles or assets acquired by right, such as forests, water and mineral resources or works of art and historical treasures.

Inventories of Supplies are held for consumption or use by the Province in the course of its operations. All entities, with the exception of the Consolidated Fund which continues to expense Inventories of Supplies in the year purchased, record inventory at the lower of cost and net realizable value.

Prepaid Expenses are cash disbursements for goods or services, other than Tangible Capital Assets and Inventories of Supplies, of which some or all will provide economic benefits in one or more future periods. The prepaid amount is recognized as an expense in the year the good or service is used or consumed.

Accumulated Deficits

Accumulated Deficits represents the direct liabilities of the Province less financial assets, non-financial assets and unamortized foreign exchange translation gains and losses and premiums and discounts on outstanding debenture issues. This represents the accumulated balance of net deficits arising from the operations of the Province.

d) Measurement Uncertainty

Uncertainty in the determination of the amount at which an item is recorded in the financial statements is known as measurement uncertainty. Uncertainty exists whenever estimates are used because it is reasonably possible that there could be a material difference between the recognized amount and another reasonably possible amount.

Measurement uncertainty exists in these financial statements in the accruals for such items as pension, retirement and other obligations, environmental remediation obligations and federal source revenues. The nature of the uncertainty in the accruals for pension, retirement and other obligations arises because actual results may differ significantly from the Province's various assumptions about plan members and economic conditions in the marketplace. Uncertainty exists for environmental remediation obligations because the actual extent of remediation activities required may differ significantly based on the actual extent of site contamination and the chosen remediation process. Uncertainty related to Sales and Income Taxes, Federal Equalization payments and CHST arises because of the possible differences between the estimated and actual economic growth assumptions used in statistical models by the Province to accrue these revenues.

2. ACCOUNTING CHANGES

Certain accounting policy changes and corrections were made during the year which have increased (decreased) the Provincial Surplus, on an expense basis, Net Direct Debt and Accumulated Deficits as follows (\$ millions):

		2002-03			2001-02	
Accounting Changes (\$ millions)	Provincial Surplus, on an expense basis	Net Direct Debt (April 1, 2002)	Accumulated Deficits (April 1, 2002)	Provincial Surplus, on an expense basis	Net Direct Debt (April 1, 2001)	Accumulated Deficits (April 1, 2001)
a) Pension Plan Assets	\$56.7	\$153.8	\$153.8	\$(71.1)	\$82.7	\$82.7
b) Valuation Allowance	130.2	(70.3)	(70.3)	256.9	186.6	186.6
c) Other Benefit Plans	(34.3)	493.0	493.0	(29.5)	463.5	463.5
d) Inventories of Supplies	0.2	-	(15.5)	0.8	-	(14.7)
e) Prepaid Expenses	-	8.9	-	-	6.3	-
f) Special Purpose Funds	1.6	(5.0)	(5.0)	(0.6)	(5.6)	(5.6)
g) Nova Scotia Health Research Foundation	-	(2.9)	(2.9)	0.4	(2.5)	(2.5)
h) Infrastructure Funding	(1.7)	(10.6)	(10.6)	10.6	-	-
Total effect of Accounting Changes	\$152.7	\$566.9	\$542.5	\$167.5	\$731.0	\$710.0

a) Pension Plan Assets

A policy change was made to record pension fund assets at market related value rather than at fair market value at the end of each fiscal year. The market related values are determined in a rational and systematic manner so as to recognize asset market value gains and losses over a five year period.

b) Valuation Allowance

To become compliant with generally accepted accounting principles, the Province implemented a valuation allowance for the accounting treatment of funded plans in a surplus position. This applies to the Public Service Superannuation Plan. Previously, the Province recognized 50% of the surplus and 50% of the related expense. With the accounting policy change, the carrying value of the surplus is reduced by the amount of the valuation allowance, and the change in valuation allowance is recognized in the current year expense.

c) Other Benefit Plans

A policy change was made to record the retirement health benefits provided to pensioners, to comply with recent CICA and PSAB changes. Benefits and interest on the obligation are recognized as earned. Experience gains and losses are amortized over the estimated average remaining service life. Previously, the Province recorded its share of premiums as expenses, and included the obligation as a commitment.

d) Inventories of Supplies

A policy change was made during the year to recognize inventory held for consumption or use by the Province in the course of its operations, with the exception of Inventories of Supplies held by the Consolidated Fund. In the prior year Inventories of Supplies were expensed in the year purchased. The Consolidated Fund is in the process of implementing an inventory system which will enable it to track and recognize Inventories of Supplies in the financial statements in the near term.

e) Prepaid Expenses

A policy change was made during the year to reclassify Prepaid Expenses from Accounts Receivable and Advances to a separate caption on the Statement of Financial Position.

f) Special Purpose Funds

During the year an evaluation was performed using the evolving PSAB recommendations on indicators to assess in determining whether an entity is part of Government Reporting Entity. As a result of this evaluation, twenty special purpose funds where added to the Province's Government Reporting Entity.

g) Nova Scotia Health Research Foundation

During the year corrections were made by the Nova Scotia Health Research Foundation for unrecorded revenue of \$2.5 million for 2000-01 and overstated accounts payable and accrued liabilities of \$0.4 million for 2001-02. The corrections were adjusted on a retroactive basis.

h) Infrastructure funding

During the year corrections were made to the method of determining funding receivable or payable for infrastructure payments. Amounts recognized in the financial statements are based on actual work completed to date versus total approved project costs.

3. UNUSUAL ITEMS

The Unusual Items disclosed on the Statement of Operations represent accounting provisions established or adjusted for the sale of certain assets from discontinued operations and infrequent events or transactions not in the normal course of activities of the Province.

Province of Nova Scotia - Public Accounts

The provisions are comprised of the following :

	2003 (\$	millio	2002 ons)
Nova Scotia Resources Limited	(†		~)
Proceeds on sale of assets	\$ 3.3	\$	22.5
Net book value of assets	(3.4)		7.1
Interest and revenue adjustments	0.8		0.2
Costs related to sale	(0.5)		1.0
Other earnings (loss) on operations	(0.3)		
Forfeiture of deposit on share sale agreement	 1.4		
	1.3		30.8
Nova Scotia Innovation Corporation			
Loss on non-controlling interest of a subsidiary	(0.4)		
Gain on disposal of assets	 		0.2
	(0.4)		0.2
Total Unusual Items - Net Gain	\$ 0.9	\$	31.0

Nova Scotia Resources Limited (NSRL)

Most of the Company's assets were sold during 2000-01 for proceeds of \$355 million. The Company continues to sell less significant assets. The gain (loss) from the sale of assets of NSRL, net of related costs, is included as an Unusual Item on the Statement of Operations for purposes of the 2001-02 and 2002-03 financial statements. Also included as an Unusual Item in 2002-03 is \$1.4 million in deposits relating to sale agreements for the shares of NSRL. The buyer did not close the sale agreements, therefore entitling the Province to retain the deposits.

During the year, the Province continued its search for potential buyers of the shares or assets of NSRL. See Note 13 Subsequent Events for related information.

Nova Scotia Innovation Corporation

During the year, the Company increased its ownership in The Decision Point from 80% to 86%. As a result of changes in the capital structure of this subsidiary, a new shareholders' agreement was signed which does not require a guarantee or obligation from the non-controlling shareholders for their share of losses incurred by this subsidiary. Accordingly, the portion of accumulated losses attributable to the non-controlling interest to the date of the new shareholders' agreement has been written off by the Company and reported as an Unusual Item in the Statement of Operations.

In 2001-02 the Company disposed of its Environmental Simulation Lab division and the assets of its wholly owned subsidiary, Nova Magnetics Limited. The total net gain on these discontinued operations is included as an Unusual Item in the Statement of Operations for purposes of the 2001-02 financial statements.

4. RESTRICTED CASH AND SHORT-TERM INVESTMENTS

As at March 31, 2003, restricted cash and short-term investments of \$60.7 million (\$46.5 million as at March 31, 2002) have been designated for restricted purposes by parties external to the Province. Restricted cash includes \$31.9 million for future housing expenditures from the Nova Scotia Housing Development Corporation; \$11.1 million for gas market development from the Nova Scotia Gas Market Development Agreement; and \$17.7 million restricted for various other purposes.

5. DERIVATIVE FINANCIAL INSTRUMENTS

The Province is a party to financial instruments with off-balance sheet risk, either to hedge against the risks associated with fluctuations in foreign currency exchange rates or to manage risks associated with interest rate fluctuations. Foreign currency contracts are used to convert the liability for foreign currency borrowing and associated costs into Canadian or US dollars. Interest rate contracts are used to vary the amounts and periods for which interest rates on borrowings are fixed or floating. Foreign exchange contracts include forward and future contracts, swap agreements and options. Interest rate contracts include forward rate agreements, future contracts, swap agreements and options on swaps, and deferred rate setting agreements.

The Province's credit policy is that it only executes derivative transactions with well rated counter parties. All counter parties are rated equal to or better than the Province.

The Province has executed the following swap contracts/forward agreements to convert certain interest payments from a fixed to floating, floating to fixed, floating to floating or fixed to fixed basis for the fiscal year ended March 31, 2003:

# of Swaps	Currency	Notional Principal	Term Remaining	Mark to Market *
		(\$ thousands)	(years)	(\$ millions)
116	CDN\$	1,708,349	1 to 21	-21.6
12	US\$	1,332,597	1 to 19	200.4
3	UK	143,250	1	5
2	Euro	90,000	5 to 7	13.6
4	Yen	50,000,000	1	10.4

* Mark to Market is an indication of the swap's market value as at March 31, 2003. This represents the estimated realizable gain and is equivalent to the present value of future interest savings based on market conditions as at March 31, 2003. The mark to market values of the currency swaps are reflected in the amounts shown under interest rate swaps.

The Province has also executed several currency swap contracts /forward agreements to convert foreign denominated debt into Canadian or US denominated debt as follows:

Termination Date	Original Currency	Original Principal	Current Currency	Current Principal
		(\$ thousands)		(\$ thousands)
SWAPS:				
April 19, 2004	UK	60,000	US\$	98,736
April 30, 2004	UK	23,250	US\$	38,261
February 27, 2012	US\$	500,000	CDN\$	795,000
March 15, 2016	US\$	150,000	CDN\$	205,725
March 1, 2020	US\$	300,000	CDN\$	409,200
April 1, 2022	US\$	182,597	CDN\$	247,967
December 28, 2007	Euro	40,000	CDN\$	56,120
February 24, 2010	Euro	50,000	CDN\$	72,235
FORWARDS:				
April 25, 2004	YEN	10,000,000	CDN\$	133,923
April 25, 2004	YEN	10,000,000	CDN\$	133,958
April 25, 2004	YEN	15,000,000	CDN\$	201,072
April 25, 2004	YEN	15,000,000	CDN\$	199,442

The Province has entered 17 forward agreements to convert future interest payments on foreign debt into Canadian dollars as follows:

Termination Date	Original Currency	Original Principal	Current Currency	Current Principal
		(\$ thousands)		(\$ thousands)
May 1, 2003 to				
November 17, 2003	US\$	83,130	CDN\$	125,708

6. PENSION, RETIREMENT AND OTHER OBLIGATIONS

a) Description of Obligations

The Province offers a variety of pension, other retirement, post-employment and special termination benefits. The Province is responsible for adequately funding the plans. Except as otherwise noted, the cost of benefits are recognized in the periods the employee provides service. For benefits that do not vest or accumulate, a liability is recognized when an event that obligates the Province to pay benefits occurs. The significant plans are detailed as follows:

i) Pension Benefit Plans

The Province has two main funded pension plans, the Public Service Superannuation Plan (PSSP) and the Nova Scotia Teachers' Pension Plan (TPP). Both plans are defined benefit plans, with plan assets primarily composed of Canadian and foreign equities, government and corporate bonds, debentures and secured mortgages. The plans are jointly funded with contributions from employees being matched by the Province. Benefits paid upon retirement are based on the employee's length of service, rate of pay and inflation adjustments.

The Province also has several unfunded defined pension plans. The majority of these plans do not require contributions from employees. Benefits paid upon retirement are based on the employee's length of service, rate of pay and inflation adjustments.

ii) Other Retirement Benefit Plans

The Province offers two significant other defined benefit retirement plans namely; Public Service Awards and other retirement allowance arrangements, as well as retirement health plan benefits. These plans are not funded. Benefits paid upon retirement for Public Service Awards and other retirement allowances are based on the employee's length of service and rate of pay. Health plan benefits vary depending on the collective agreements negotiated with each group. The Province pays 65% and 100% of the cost of health plan benefits for the PSSP and TPP retirees respectively.

iii) Post-Employment Benefits

The Province offers two significant post-employment benefit plans: Self-Insured Workers' Compensation (WC) and Long-Term Disability (LTD).

Any approved claims from injured workers are paid by the Province for WC benefits. The amount recorded in these financial statements represents the actuarial estimate of future payments based on claims ongoing at year end.

The Province participates with the Nova Scotia Government Employees Union in the administration of the Nova Scotia Public Service Long-Term Disability Plan Trust Fund. The Fund provides benefits to those workers approved for long-term disability leave. Other LTD plans are accounted for on the cash basis and are not yet actuarially valued.

iv) Special Termination Benefits

The Province has offered early retirement incentive programs to members of the PSSP and TPP at various times commencing in 1986 and 1994 respectively. Qualified members were offered additional years of pensionable service if they elected to retire. The cost of these benefits are accrued in the year the employee accepts the early retirement option. Funding of these benefits comes from ongoing operations and not pension plan assets.

	Pension B	Benefits	Other B	enefits
	2003	2002	2003	2002
Projected benefit obligation, beginning of year	\$7,041,969	\$6,291,001	\$1,039,912	\$1,131,445
Current benefit cost	168,072	156,671	27,830	28,221
Interest cost	561,293	537,791	63,879	69,823
Actuarial (gains) losses	56,646	461,841	61,346	(82,619)
Benefit payments	(423,829)	(409,554)	(70,099)	(106,958)
Employee contributions	3,741	2,980	-	-
Plan amendment	-	1,239	-	-
Projected benefit obligation, end of year	7,407,892	7,041,969	1,122,868	1,039,912
Market related value of plan assets, beginning of year (Market Value - \$6.6 billion; 2002 - \$6.6 billion)	6,978,870	6,589,687	-	-
Expected return on plan assets	560,023	528,724	-	-
Actuarial gains (losses)	(349,895)	50,690	-	-
Benefit payments	(423,829)	(409,554)	(70,099)	(106,958)
Employer contribution	135,661	125,120	70,099	106,958

Market related value of plan assets, end of year (Market Value - \$5.78 billion; 2002 - \$6.6 billion)	6,998,994	6,978,870	-	-
Funded status, end of year	(408,898)	(63,099)	(1,122,868)	(1,039,912)
Unamortized net actuarial (gains) losses	209,386	(205,665)	(4,580)	(51,247)
Valuation allowance	-	(132,169)	-	-
Accrued benefit asset (liability), end of year	(\$199,512)	(\$400,933)	(\$1,127,448)	(\$1,091,159)

b) Summary of Activity in Benefit Plans

The PSSP, which is included in Pension Benefits, has plans assets for accounting purposes that exceed the projected benefit obligations at March 31, 2003. The projected benefit obligations were \$3.0 billion (2002 - \$2.8 billion) and market related value of plan assets was \$3.1 billion (2002 - \$3.1 billion). The remaining benefit plans have projected benefit obligations in excess of plan assets for accounting purposes or are unfunded.

The net unamortized actuarial gains (losses) will be amortized on a straight-line basis over the expected average remaining service life (EARSL) of the related employee groups ranging from 6 years to 15 years (weighted-average EARSL is 14 years).

c) Actuarial Assumptions

The table below shows significant weighted-average assumptions used to measure pension and other benefit plan obligations.

	Pension Benefits		Other Benefits		
	2003	2002	2003	2002	
Long-term inflation rates	3.0%	3.0%	3.0%	3.0%	
Expected real rate of return on plan assets	5.0%	5.0%	-	-	
Rate of compensation increase	3.5% to 6.0% + merit	3.5% to 6.0% + merit	3.5% to 6.0% + merit	3.5% to 6.0% + merit	
Discount rate	8.15%	8.15%	6.17%	7.05%	

Other assumptions used were:

11% annual rate increase in the cost per person of covered healthcare benefits for 2003, decreasing at 1% per annum to an ultimate rate of 5.0% per annum

The most recent actuarial valuations performed for most of the benefit plans was at December 31, 2001 with the exception of certain other retirement benefit plans which were performed on December 31, 2002 and the post-employment benefit plans which are performed annually at March 31.

d) Net Benefit Plans (Recovery) Expense

The table below shows the components of the net benefit plans expense (recovery).

	Pension Benefits		Other Bend	efits
	2003	2002	2003	2002
Current benefit cost	\$168,072	\$156,671	\$27,830	\$28,221
Employee contributions	(94,423)	(91,223)	-	-
Expected return on plan assets	(560,023)	(528,724)	-	-
Plan amendments	-	1,239	-	-
Amortization of net actuarial (gains) losses	(8,150)	(39,712)	8,821	(10,352)
Decrease in valuation allowance	(132,169)	(162,464)	-	-
Interest Cost	561,293	537,791	63,879	69,823
Net benefit plans (recovery) expense	(\$65,400)	(\$126,422)	\$100,530	\$87,692

7. TRUST FUNDS UNDER ADMINISTRATION

Trust funds assets administered by the Province (before giving consideration to actuarial adjustments) are:

	2003 (as		2002 s restated)
	(\$ thousands)		
Public Service Superannuation Fund (1)	\$ 2,555,530	\$	2,947,041
Nova Scotia Teachers' Pension Fund (1), (4)	3,350,712		3,598,718
Workers' Compensation Board (1), (4)	780,802		729,641
Sydney Steel Corporation Superannuation Plan (1), (2)	16,858		39,323
Nova Scotia Public Service Long Term Disability Plan (1), (4)	27,602		28,271
Nova Scotia Credit Union Deposit Insurance Corporation (1), (4)	12,152		11,088
Public Trustee (1)	24,283		23,302
Miscellaneous Trusts (3)	 36,495		33,842
	\$ 6,804,434	\$	7,411,226

- (1) See Public Accounts Volume II for full financial statements of these funds.
- (2) Administration of the assets of Sydney Steel Corporation Superannuation Fund was assumed during fiscal 2000-2001.
- (3) Miscellaneous trusts include a large number of relatively small funds.
- (4) These represent trusts with December 31 year ends. Trust assets balances at March 31 did not differ significantly.

8. FEDERAL TAX COLLECTION AGREEMENT ERROR

In early 2002, the Canada Customs and Revenue Agency (CCRA) disclosed that it had recently discovered that provincial Personal Income Tax (PIT) payments to provinces that are members of the Tax Collection Agreements had been overpaid for several years. The overpayments were a result of an error in the payments recording processes at CCRA in which the capital gains refunds to mutual fund trusts were not deducted from provincial payments. This overstated the payments to provinces that had mutual fund trust amounts allocated to them. For Nova Scotia, the overpaid amounts were relatively minor. However, for some provinces with large mutual fund trust bases, the overpayments were substantial.

Provincial PIT overpayments could have potentially impacted the provinces' results in prior years through federal transfer payments because PIT is one of 33 tax bases used to determine Equalization payments. However, the federal government has opted to protect equalization receiving provinces from any negative impacts resulting from the recovery of overpayments in an effort to provide comparable benefits to the provinces that received the overpayments. The federal government will change the measurement of fiscal capacity in the Equalization Program to accurately reflect the correction of the error. This change was in place in 2001-02 and the Province had recognized the potential liability through a negative \$35 million adjustment for the impact on Equalization.

Further information surrounding the federal treatment of this error has eliminated this risk associated with this error. Therefore, the \$35 million adjustment set up in 2001-02 has been reversed in 2002-03.

9. NET EXPENSES BY OBJECT

	2003		2002 (as restated)
	(\$	ands)	
Grant and Subsidies	\$ 1,916,469	\$	1,852,586

Change in Accrued Interest	(23,273)		4,433
Change in Pension, Retirement and Other Obligations	 (165,133)		(270,033)
Total Net Change in Other Items	\$ (24,358)	\$	(692,009)

Province of Nova Scotia - Public Accounts

12. CONTINGENCIES AND COMMITMENTS

a) Contingent Liabilities

i) Environmental Sites

Various provincially owned sites throughout the Province are considered environmental or contaminated sites. Studies are ongoing to assess the nature and extent of the damage and to develop a remediation plan. With the exception of sites noted in the following paragraph, remediation costs for these sites are not determinable as at March 31, 2003 and no further provisions for these costs have been recorded in these financial statements.

Engineering and environmental studies have generated initial estimates for the cost of remediation of the Sydney Steel Corporation and adjacent sites as well as the Sydney Tar Ponds site. As a result, the Province recorded liabilities of \$250.0 million and \$68.5 million respectively, in 1999-2000 for environmental site clean up. Of these provisions, \$230.2 million (2001-02 - \$245.5 million) and \$50.0 million (2001-02 - \$53.5 million), respectively, remain unspent.

ii) Lawsuits

The Province's losses for any lawsuits pending cannot be determined due to uncertainty of the trial outcomes.

iii) Other Contingent Liabilities

The Province also has contingent liabilities in the form of indemnities. The Province's potential liability, if any, cannot be determined at this time.

b) Contingent Gains

The Province of Nova Scotia may receive funds in the future from recoveries of various types of claims paid out and other agreements pending the occurrence of certain events. Recoveries are recorded in the year the contingent events occur.

c) Commitments

i) Commitments

Commitments total \$403.2 million; comprised of \$280.1 million for Consolidated Fund, \$118.6 million for other Governmental Units and \$4.5 million for Government Business Enterprises. Included are commitments of \$76.1 million by Nova Scotia Business Incorporated for projects approved under its various programs and \$66.8 million by the Department of Health for information technology and new facilities. Also included is \$49.1 million by the Department of Service Nova Scotia and Municipal Relations for the Canada-NS Infrastructure Program Agreement.

In addition to the commitments noted above, in 1992 the Department of Justice entered into a 20-year contract with the RCMP for policing services, including services paid by the municipalities under the Service Exchange Agreement. Costs are negotiated each year based on required policing services. The net estimated expense for the Province for 2003-04 is \$16.7 million.

ii) Leases

As at March 31, 2003, the Province was committed under various operating leases. Future minimum annual lease payments are as follows:

Fiscal Year	Lease Payments (\$ thousands)
2003 - 2004	\$ 42,353
2004 - 2005	34,535
2005 - 2006	27,987
2006 - 2007	23,224
2007 - 2008	17,891
2009 - 2013	23,744
2014 - 2018	15,760
2019 - 2023	5,374
	\$ 190,868

13. SUBSEQUENT EVENTS

a) Income Tax Rate Reduction

The Financial Measures (2003) Act, receiving Royal Assent on May 22, 2003, provides for an immediate one-time taxpayer refund of \$69.4 million and a 10% income tax rate reduction commencing January 1, 2004. The income tax rate reduction is estimated to reduce personal income tax revenues by \$36.7 million in 2003-04 and \$147 million per year thereafter.

b) Disposal of Assets Held for Sale

On May 14, 2003 the Province announced it had accepted two cash bids totaling \$5.8 million for the sale of the remaining assets of Nova Scotia Resources Limited to Pengrowth Corporation and Shell Canada Limited. Pengrowth purchased NSRL's interests in all significant discovery licenses, except one, for consideration of \$4.5 million and a 10% net profits interest to the Province. Shell Canada purchased NSRL's interest in the remaining license, covering Deep Cohasset, for consideration of \$1.3 million. The Pengrowth and Shell Canada purchase and sale agreements closed on June 27, 2003 and July 29, 2003, respectively.

On October 23, 2003 the Province sold its shares in Nova Scotia Resources Limited for \$1.6 million.

The gain on disposal of these assets will be recognized in 2003-04.

c) Hurricane Juan

The Province of Nova Scotia sustained significant damage as a result of Hurricane Juan making landfall on September 29, 2003. The Province has announced a Disaster Financial Assistance Arrangement for municipalities, individuals and small businesses who incurred uninsurable losses from the effects of Hurricane Juan. The cost of this arrangement and other hurricane related repairs to property owned by the Province are not presently known.

d) Sinking Fund Instalments

Effective April 1, 2003, the Province will make Sinking Fund instalments only in accordance with bond covenants.

14. COMPARATIVE FIGURES

To conform with the current year's presentation, certain comparative figures for the prior year have been restated as follows:

a) Accounting Changes

As described in Note 2, there have been some retroactive restatements of figures in accordance with the newly adopted accounting policies and corrections.

b) Presentation

Certain of the prior year's numbers have been restated to conform to the presentation format adopted in the current year.

15. RELATED PARTY TRANSACTIONS

Included in these consolidated financial statements are immaterial transactions with various provincial crown corporations, agencies, boards and commissions. Significant related party transactions have been offset and eliminated for purposes of consolidated reporting. Parties are deemed to be related to the Consolidated Fund due to common control or ownership by the Province of Nova Scotia.

The most significant unadjusted related party transactions are described in Schedule 4 - Government Business Enterprises.

Financial Highlights

Message from the Minister of Finance

I am pleased to report that a surplus has been recorded in the Province of Nova Scotia's 2002-2003 Financial Statements.

It takes discipline, hard work and sound financial policies to manage a fiscal plan. Nova Scotians supported the difficult choices that had to be made in order to move from a deficit to a surplus position.

Our efforts paid off, as the audited surplus for fiscal 2002-2003 is \$31.6 million.

In 2002, the Nova Scotia economy continued to grow despite the overall global economic slowdown. Nova Scotia's GDP growth rate was 3.8 per cent, compared to Canada's 3.3 per cent rate of growth. Provincial own-source revenues increased, signaling greater self-sufficiency. Federal revenue sources, however, declined.

The province achieved its target of reducing foreign exchange exposure to less than 20 per cent, a full 18 months ahead of schedule.

Nova Scotia implemented an accounting change, in compliance with generally accepted accounting principles, completing a four-year program towards greater transparency and accountability in its financial reporting.

The Nova Scotia government will continue to carry out a fiscal plan of prudent and responsible management.

Honourable Peter G. Christie Minister

Note: In order to better reflect the actual costs of servicing the Province's debt, the reporting of interest revenues, which were formerly netted against certain interest expenses in the Debt Servicing Costs appropriation, was changed in the 2001-2002 Public Accounts. Interest Revenues have been restated to include Short-Term Interest revenue, which was formerly netted against General Interest expenses in the Debt Servicing Costs appropriation. Also, the Public Debt Retirement Fund Earnings, which were formerly netted against the Debt Servicing Costs appropriation, have been included under Sinking Fund Earnings. As a result, the Estimate for fiscal 2002-2003 has been restated to reflect these changes in reporting.

Significant Accounting Policy Issues

Introduction

The Province of Nova Scotia recognizes that its primary financial accountability document is the annual financial statements. These statements are prepared following generally accepted accounting principles to ensure full and open disclosure of the Province's financial position and results of operations.

The Standard

The recommendations and guidelines of the Canadian Institute of Chartered Accountants (CICA) Public Sector Accounting Board (PSAB), supplemented where appropriate, by other CICA accounting standards and guidelines, provide an authoritative foundation for the Province of Nova Scotia as it relates to what constitutes appropriate accounting for and disclosure of the Province's financial position and results of operations. PSAB's recommendations have, to a significant extent, been adopted by governments across Canada.

Key Items for the 2002-2003 Financial Statements

Accounting Changes

Certain accounting policy changes and corrections were made during the year which have increased or decreased the provincial surplus, on an expense basis, the net direct debt and accumulated deficits. These changes were made for enhanced compliance with new or existing generally accepted accounting principles or to correct certain expenses to date. The change in valuation of pension plan assets using market related value is a discretionary change within the allowable methods under generally accepted accounting principles. Details on the nature and impacts of these changes are included in Note 2 of the Consolidated Financial Statements.

Federal Revenue Adjustments

During the year there were significant federal revenue adjustments. Further information surrounding the federal tax collection agreement error, which reduced revenues in fiscal 2001-2002 by \$35.0 million, has eliminated the risk associated with this error. Therefore, the \$35.0 million adjustment has been reversed in fiscal 2002-2003.

Also, the recent census results have been factored into the federal transfers formulae and have produced a reduction to revenues totaling \$126.9 million in respect of the last three fiscal years. The federal government has indicated that they expect the overpayments to each province will be repaid. Therefore, the Province has recorded the reduction in revenues in fiscal 2002-2003.

Special Purpose Funds

A review of special purpose funds was performed in the year and all balances were consolidated into these financial statements. It is important to note that the net consolidation impact of each fund has been listed under the heading of the related department in Schedule 2, Net Expenses in the Consolidated Financial Statements. Each department is responsible to incorporate the financial impacts of their assigned funds into their budgets accordingly.

Revenues - Consolidated Fund

Total - Revenues	5,240,102	5,331,837	5,289,666	(42,171)
Note: Interest Revenues have been resta	ated in the 2001-2002 A	Actual and the 200	02-2003 Estimate	

ote: Interest Revenues have been restated in the 2001-2002 Actual and the 2002-2003 Estimate to include Short-Term Interest revenue, which was formerly netted against General Interest expenses in the Debt Servicing Costs appropriation. The amount of Short-Term Interest in the 2001-2002 Actual is \$35.346 million, and \$25.179 million and \$31.643 million in the 2002-2003 Estimate and Actual respectively.

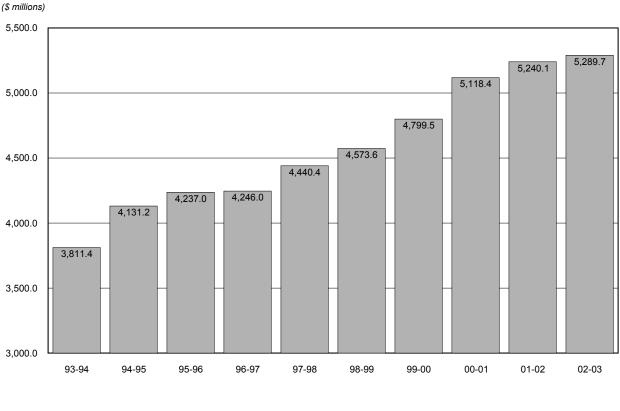

Total Ordinary Revenues were \$5,289.7 million for fiscal year 2002-2003, which is \$42.2 million lower than the original budget.

Provincial Sources

In fiscal 2002-2003, Personal Income Tax revenue increased by 2.9 per cent or \$38.5 million over the budget projection, primarily reflecting growth in taxable incomes over the initial estimate. Credits decreased slightly from budget projections as well.

Corporate Income Tax revenue increased by 11.6 per cent or \$21.3 million over the budget projection, primarily due to higher than projected national corporate taxable income and a significantly increased share of national corporate taxable income over budget projection. Part of the increase related to the corporate taxable income change was offset by a significant increase in the take-up of corporate income tax credits over budget expectations.

Harmonized Sales Tax increased 1.8 per cent or \$16.2 million over the 2002-2003 budget projection, due to an increase in the national GST/HST Declared Revenue Pool, of which Nova Scotia is entitled to its provincial share under the Revenue Allocation Formula.

Revenues - Consolidated Fund 1993-1994 to 2002-2003

Tobacco Tax rose by 5.0 per cent or \$6.9 million over the 2002-2003 budget, due to tobacco tax rate increases in April 2002 and January 2003. The latter tobacco tax rate increase was not factored into the 2002-2003 Estimate. Motive Fuel Tax rose by 2.9 per cent or \$6.9 million over the 2002-2003 budget, due to an equivalent increase in taxable gasoline volume sales. The gasoline tax rate increase in April 2002 was factored into the 2002-2003 Estimate.

Federal Sources

Equalization transfers were \$1,125.1 million in fiscal 2002-2003, which was \$195.1 million lower than the original budget. The decrease was driven by revised population data and higher than anticipated growth in Nova Scotia's own source revenues. The Canada Health and Social Transfer (CHST) increased by \$13.8 million as a result of updated information.

Prior Years' Adjustments

Prior Years' Adjustments (PYA's) are made to reflect changes in information with respect to prior years' revenues, which are still forthcoming from sources such as the federal government. Typically, income tax adjustments are from the previous year, in this case 2001, while transfer payments are finalized over three years from the time of the initial payment. The Province experienced negative PYA's totaling \$21.9 million in fiscal 2002-2003. The net \$23.8 million in negative PYA's related to provincial revenue sources were partially offset by net positive PYA's of \$1.9 million from federal revenue sources.

Provincial Sources

Negative PYA's of \$1.5 million and \$9.0 million were recorded for personal and corporate income taxes respectively due to updated information. There was a negative PYA of \$10.1 million recorded for the Harmonized Sales Tax as a result of more recent information. The Capital Tax on Non-Financial Institutions and the Corporation Capital Tax recorded negative PYA adjustments of \$1.4 million and \$1.8 million respectively.

Federal Sources

Statistics Canada's population estimates for Nova Scotia based on the 2001 Census indicates that the population projections were smaller than previously anticipated. Since population is the most important variable in the transfer formulas, the downward revision to population has significantly impacted the federal transfers to Nova Scotia.

Since equalization entitlements are paid on a per capita basis, the province's lower level of population led to reduced equalization. Also, population share largely determines CHST entitlements. Although the population of Nova Scotia is still growing, the province's share of the national total has declined, thereby reducing Nova Scotia's CHST entitlements.

A negative PYA of \$0.2 million was recorded for equalization transfers, due largely to the downward impact of census revisions on the formula. The negative impacts were offset by positive changes in other parameters in the formula and accounting adjustments. The Canada Health and Social Transfer also incurred negative impacts resulting from the census revision, which were more than offset by other positive adjustments. As a result, a positive PYA of \$2.2 million was recorded for CHST.

Other Revenue Adjustment

During the year there were significant federal revenue adjustments. Further information surrounding the federal tax collection agreement error, which reduced revenues in fiscal 2001-2002 by \$35.0 million, has eliminated the risk associated with this error. Therefore, the \$35.0 million adjustment has been reversed in fiscal 2002-2003.

Note: The consolidation of departmental expenditures with that of government service organizations provides the total expenditures for which government is accountable. This Table provides the net program expenses by department prior to consolidation, as compared to the prior fiscal year and the budget, which are the Estimates as approved by the Legislature in the annual Appropriations Act.

Net Program Expenses, which represent the government's share of the programs and services provided to Nova Scotians, increased by \$54.8 million, or 1.21 per cent, during fiscal 2002-2003 over the original budget of \$4.513 billion. Increased costs in the health care, education and social service sectors and severe winter weather conditions were the primary reasons for the additional spending.

Although the Pension Valuation Adjustment is not included in Net Program Expenses, the item is included under Net Expenses in the Consolidated Fund portion of the Budgetary Summary and therefore, will be noted in this section of the Financial Highlights.

The Province of Nova Scotia accounts for pension costs on a basis that is consistent with generally accepted accounting principles and as such, in the current fiscal year recognizes pension expense to include the cost of pensionable service earned by employees and amortization of the experience gains and losses in the pension plans.

VADIANCE

During the year, the method of valuing pension assets was reassessed and changed from a fair market value basis to a market related value basis as permitted under generally accepted accounting principles. This methodology recognizes the total annual change in market value into the asset value equally over a period of five years instead of all at once. The effect of the change is to reduce volatility in the asset values and expenses year over year from huge and often very short term fluctuations, both negative and positive, in the market value of pension plan assets as measured on March 31st of each fiscal year.

These assets are held over a very long term period and the market swings are usually not realized as they tend to even out over time. The accounting methodology change better reflects this long term nature of the investments. Along with this change, the Valuation Allowance calculation was made more complaint with PSAB. Also, to comply with new PSAB Recommendations, retirement health benefits were recorded for the first time, with the expense impact being included in the total Pension Valuation Adjustment for the year.

There was a total net positive adjustment of \$150.0 million recorded as the Pension Valuation Adjustment for fiscal 2002-2003. The Pension Valuation Adjustment for fiscal 2001-2002 has also been adjusted positively by \$175.5 million to \$242.3 million. (See Note 2 of the 2002-2003 Consolidated Financial Statements for further details.)

The Department of Community Services was overspent by \$19.3 million in fiscal 2002-2003, primarily in the Housing Services division. While actual spending did not vary much from the original budget, net expenses exceeded the estimate by \$11.3 million as the provincial government increased its share of the spending in order to improve the viability of the social housing stock in the future.

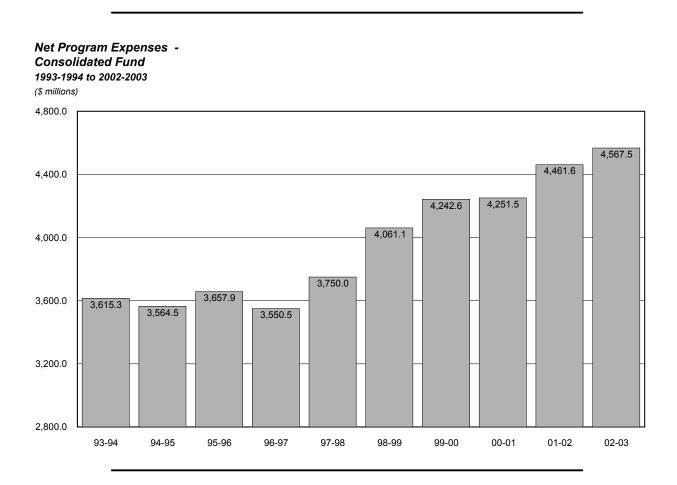

Within the Family and Children's Services division, the Early Childhood Development Initiative was overspent by \$4.7 million. In the previous fiscal year, there were delays in ramping up programs under this new initiative and the department was unable to spend \$4.7 million of their allotment. The revenues received from the federal government under the CHST in fiscal 2001-2002 were deferred until this fiscal year with the understanding that this funding would be matched to the spending in fiscal 2002-2003. Savings from the delay in opening the Secure Care Treatment facility in Truro partially offset the additional spending in the division.

The Community Support for Adults program was overspent by \$7.8 million as a result of demands for individualized high cost small option facilities for clients who cannot wait for existing beds to become available. There were also significant transitional costs associated with closure of the Scotia Adult Residential Centre and the Halifax County Regional Rehabilitation Centre.

In the Income Assistance and Employment Support division, the department experienced a slower rate of decline in caseload trends but managed to achieve savings in the Property Tax Rebate program for Seniors as a result of fewer applications. In addition, there were significant savings in administrative costs as a result of a concerted effort to minimize the department's over spending.

The Department of Health required an additional \$15.8 million in funding in fiscal 2002-2003 to meet increased commitments in the health care sector, which is an increase of 0.8 per cent over its original budget. An additional \$21.7 million was related to the year-end deficits of the district health authorities, while increased utilization and fees added a total of \$3.5 million to the costs of medical payments and other insured programs. Based on the usage of blood fractionation products, Nova Scotia's payments to the Canadian Blood Service increased by \$2.8 million during the fiscal year. Higher than anticipated billings, specifically from New Brunswick and Ontario, added \$1.6 million to the overspending. Savings in the long term care and home care sectors and early childhood development program partially offset the additional expenses.

Spending by the Department of Transportation and Public Works exceeded the original budget of \$239.4 million by \$14.2 million. The primary reason for the overspending was the severe winter weather conditions, which resulted in the snow and ice control program being overspent by \$11.2 million. Also, the recognition of the liability, projected to be \$4.0 million, to remediate the former mine site in Inverness and the \$1.4 million settlement of a long standing litigation issue contributed to the over spending. Operating savings in various divisions of the department partially offset the increases.

The Department of Education exceeded its 2002-2003 budget of \$928.7 million by \$1.5 million, or 0.02 per cent as a result of a number of factors. An additional \$2.1 million was incurred to support a new rate structure for teachers' benefits. Also, increased funding of \$1.5 million was provided to the regional school boards to address various cost pressures. These additional charges were partially offset by savings of \$1.1 million as the Consumer Price Index price escalators on the leased schools were less than anticipated. Increased costs of \$1.6 million for non-capital school renovations and repairs were offset by savings of \$1.8 million in amortization, achieved as a result of changes in completion dates of schools under construction. Interest savings on the Canada Student Loan portfolio of \$1.6 million were offset by additional funding to support the merger of the Collége de l'Acadie and the Université Ste. Anne of \$0.7 million.

The Assistance to Universities appropriation exceeded the 2002-2003 net budget of \$201.7 million by 2.5 per cent, or \$5.0 million. The increase was the result of an allocation of an additional \$6.0 million to the universities, which was partially mitigated by an increase in recoveries related to out-of-province students of \$1.0 million.

Service Nova Scotia and Municipal Relations was overspent by \$4.2 million as a result of the Province of Nova Scotia's \$2.0 million contribution to the Halifax Harbour Solutions Project and \$1.2 million for the Low-Income Fuel Tax Refund program. Also, an accounting adjustment of \$2.5 million was made to ensure that the Canada-Nova Scotia Infrastructure and Provincial Capital Assistance program grants were recognized in the fiscal period during which both the payment was authorized and the eligibility criteria was met. These additional expenses were offset by savings in salaries, operational expenses and grants in various areas of the department.

An additional \$2.2 million was required by the Department of Agriculture and Fisheries to meet additional program commitments for the Net Income Stabilization Account and the Canadian Farm Income program and for an adjustment in the loan valuation allowance of the Fisheries and Aquaculture Loan Board, as a result of an analysis of outstanding loans.

The Emergency Measures Organization of Nova Scotia required \$1.95 million in additional funding for Nova Scotia's share of the assistance related to the eligible municipal, private property and provincial costs sustained in the March 31, 2003 flood.

The actual results for the Department of Tourism and Culture reflect a net increase of slightly more than \$1.0 million. The Executive Council approved the additional funding to enable the department to take advantage of tourism marketing initiatives in the Atlantic Canadian, Ontario and European markets.

The Nova Scotia Petroleum Directorate exceeded its original budget by \$0.7 million as a result of a recommendation by Consulting and Audit Canada to reflect the actual federal recoveries approved for shipyard assistance loans, which required the Province to return \$1.4 million to the Canada-Nova Scotia (Offshore) Development Fund. Savings due to delays in the Deep Panuke Offshore Gas project and an increase in the Canada-Nova Scotia Offshore Petroleum Board industry rebate partially offset the impact of the recovery adjustment.

The actual results for fiscal 2002-2003 show several departments and Public Service appropriations to be under spent, primarily because of savings achieved through the management of staffing and general operating efficiencies. The actual results for the Department of Economic Development reflect a net decrease of \$3.4 million, due to federal-provincial projects that were completed at a slower pace than planned and other operational savings. These savings were partially offset by an increase in the reserve against future losses in the loan portfolio.

The final item in the Net Program Expenses schedule is Loss on the Sale of Crown Assets, which represents the net difference between the sale price of an asset and its unamortized cost. There was a net loss of \$0.7 million to the Province in fiscal 2002-2003 because of the transfer of buildings as a result of the merger of the Collége de l'Acadie and the Université Ste. Anne.

Tangible Capital Assets - Consolidated Fund

Effective April 1, 1999, the Province implemented a new accounting policy for Tangible Capital Assets. The new policy charges a percentage of the original cost to each year of the useful life of the asset. This charge to operations is called amortization. As a result, departments are now required to budget for tangible capital assets purchases and the resulting amortization from the acquisition of these assets. The cost of the estimated purchases of eligible Tangible Capital Assets is voted separately in the Capital Purchase Requirements appropriation and the departmental details are noted below.

Capital Purchase Requirements

(\$ thousands)

DEPARTMENTS	ESTIMATE 2002-2003	ACTUAL 2002-2003	VARIANCE Increase (Decrease)
Agriculture and Fisheries	600	517	(83)
Education	90,865	87,546	(3,319)

Transportation and Public Works	105,039	98,795	(6,244)
	218,956	210,458	(8,498)

The Capital Purchase Requirements appropriation was under spent by \$8.5 million in fiscal 2002-2003 primarily as a result of adjustments in the construction schedules for various infrastructure projects such as: new schools; additions and alterations to existing schools; courthouses and correctional facilities; the Province's three resort hotels; and, highways. The additional spending in the Department of Natural Resources relates to the acquisition of the Cape Split property, while the increase in the Department of Health is the result of the acquisition of a back-up and disaster recovery system.

This schedule reflects the amortization charged to operations related to the Tangible Capital Assets that were acquired in prior years, as well as the charges related to the acquisitions made during fiscal 2002-2003.

Note: The Debt Servicing Costs appropriation, Resolution #8, is net of Short-Term Interest revenue, which is included in Interest Revenues in Ordinary Revenue in the Budgetary Summary, and Debt Retirement Fund Earnings, which are now included in Sinking Fund Earnings. The 2002-2003 Estimate and Actual for Short-Term Interest revenue are \$25.179 million and \$31.643 million respectively, while the 2002-2003 Estimate and Actual for Debt Retirement Fund Earnings are \$45.605 million and \$55.716 million respectively.

* - Refers to the Resolution Number in the Appropriations Act, 2002.

Debt Review

The accounting changes, which are outlined in Note 2 of the Consolidated Financial Statements, resulted in an increase in the Net Direct Debt as at March 31, 2002 from \$11.561 billion to \$12.128 billion. This change increased the Net Direct Debt (NDD) to Gross Domestic Product (GDP) ratio from the 44.1 per cent reported in the Public Accounts for the fiscal year 2001-2002 to 46.3 per cent.

In fiscal 2002-2003, the Province of Nova Scotia posted a surplus of \$30.7 million before unusual items. The Net Direct Debt of the Province as at March 31, 2003 was \$12.206 billion, an increase of \$77.9 million from the restated Net Direct Debt at the end of fiscal 2001-2002. The Province's NDD to GDP ratio decreased to 44.7 per cent at March 31, 2003, down from 46.3 per cent a year earlier.

Capital Markets Issuance Initiatives

The Province of Nova Scotia borrowed \$932.0 million in fiscal 2002-2003. The borrowing was used to repay debt that matured during the year and to fund provincial operations. The \$932.0 million borrowing program was comprised of a \$100.0 million Euro-Canadian issue under the Province's European Medium-Term Note program, \$675.0 million in floating rate notes, and \$157.0 million in retail structured notes.

Financial Risk Management

In fiscal 2002-2003, the Province reduced its exposure to foreign currency in the debt portfolio to 19.5 per cent, on a gross basis, at March 31, 2003, down from 28.9 per cent at March 31, 2002. Netted against US dollar sinking fund assets, foreign currency exposure stands at 15.4 per cent. This action marks a significant improvement in the Province's foreign currency exposure that stood at 72.0 per cent at March 31, 1995. The Province has achieved its target of reducing its foreign currency exposure to 20.0 per cent by September 2004, 18 months ahead of schedule.

The Province maintained its exposure to short term interest rates in the debt portfolio at 15.5 per cent, just above the minimum of the Province's floating rate exposure policy range. At March 31, 2003, the average term to maturity of the debt portfolio stood at 9.3 years, which was 0.9 years shorter than a year earlier.

Debt Servicing Costs

Net Debt Servicing Costs in fiscal 2002-2003 were \$846.8 million, a decrease of \$43.5 million from the restated budget.

Net Debt Servicing Costs - Consolidated Fund

(\$ millions)

	ACTUAL 2001-2002 (as restated)	ESTIMATE 2002-2003 (as restated)	ACTUAL 2002-2003	VARIANCE Increase (Decrease)

Net Debt Servicing Costs - Consolidated Fund 1993-1994 to 2002-2003

* The fiscal years 1993-1994, 1994-1995 and 1995-1996 have not been restated to reflect the accounting changes related to foreign exchange gains and (losses), premiums and discounts.

Debenture Debt

The Province's Net Debenture Debt, which is outstanding debentures less sinking funds and the Public Debt Retirement Fund, was \$11.2 billion in Canadian dollar equivalent at the rate of exchange in effect at noon on March 31, 2003. The difference between the value of the foreign currency debt at the issue date and the net hedged value on March 31, 2003 was \$556.1 million. This amount will fluctuate from year to year based on exchange rates in effect at year end.

The Province of Nova Scotia provides sinking fund instalments for several of its term debt issues not including Canada Pension Plan and Medium Term Note issues. Annual sinking fund instalments generally range from one to three percent of the original issue, but may vary slightly from year to year based on actual and anticipated rates of return on sinking fund assets. Sinking funds are treated as trust funds and are used solely for debt retirement. Sinking funds related to US dollar debt are invested in US dollar denominated securities.

Debenture Debt (\$ millions)	
	Outstanding Debentures (CDN\$ Equivalents)
Debentures Payable in Canadian Dollars	
Canada Pension Plan Investment Fund	1,079.4
Other Issues	10,029.4
United States Dollars	2,642.4
	13,751.2

Borrowing Powers

Long-term debt issued by way of debentures and Medium Term Notes are subject to a legislative authority to borrow through the annual Appropriations Act. Unused portions of these authorities carry forward to be used in future years. In fiscal 2002-2003 the Province borrowed, at face value, \$932.0 million in long-term debentures, which was applied to the 2001 and 2002 authorities.

Statement of Borrowing Powers as at March 31, 2003 (\$ thousands)			
	Amount of Issue	2001-2002	2002-2003
Balance of Authority from Previous Fiscal Years		1,764,662	527,291
Authority Approved for the Fiscal Year		1,500,000	1,500,000

Notes: The data for 2003 is Department of Finance forecasts as of 13-Aug-2003 (F).

Economic Performance

Output

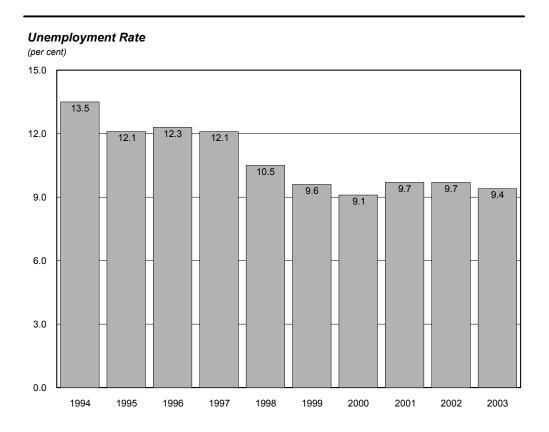

In 2002, the Nova Scotia economy continued to grow despite the overall global economic slowdown. Statistics Canada reported a Real GDP growth rate of 3.8 per cent for Nova Scotia in 2002, higher than the 2.5 per cent growth rate in 2001. Real GDP growth for Canada stood at 3.3 per cent in 2002.

Strong domestic demand in consumer spending, housing construction and export sales to other provinces were the driving forces behind economic growth in 2002. Domestic demand was up 3.7 per cent. Residential capital expenditures were up 17 per cent, reflecting the 21.5 per cent increase in new home construction in 2002. A stronger Canadian economy supported a 5.2 per cent increase in export sales of goods and services to other provinces.

International trade and business capital investment were the weak sectors in 2002. Non-residential capital investment dropped 10.2 per cent, partly as a result of the completion of modifications to the drilling rig Eirik Raude in 2002. The global slowdown due to the slump in the United States economy resulted in a 2.0 per cent increase in international trade. Not all international export sales were weak in 2002, however, as sales were strong for products such as rubber tires, structures and parts of structures, excluding prefabricated, iron or steel, shrimps, scallops, crabs and lobster.

Labour Markets

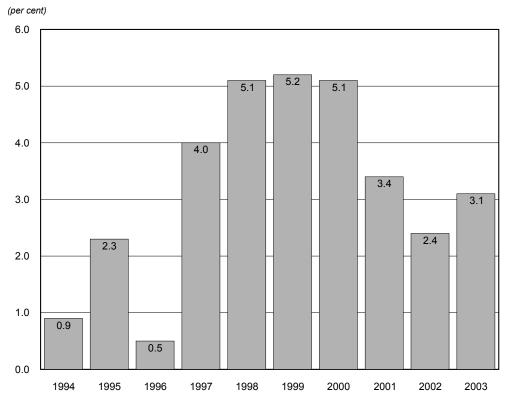

In 2002, employment increased by 1.2 per cent to 428,400 with a net gain of 5,100 jobs. The labour force grew 1.1 cent, a rate of growth slightly lower than the growth in jobs. The net result of employment growing at a slightly faster pace than the labour supply was a stable unemployment rate in 2002 of 9.7 per cent, the same rate as in 2001.

Consumer Spending and Income

Personal expenditures on goods and services increased 4.6 per cent in 2002, up from 3.5% in 2001. Retail sales registered an increase of 5.4 per cent in 2002. The tempo of consumer spending held up even as growth in personal income slowed. Personal income grew 2.4 per cent. Labour income, the largest share of personal income, increased 3.9 per cent.

Personal Income Growth

Industry Performance

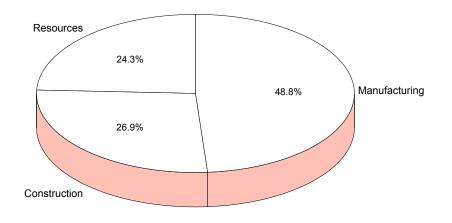

Goods Industries Employment

Goods-producing industries accounted for 22.0% of the total employment in the Nova Scotia economy in 2002. Employment in the goods-producing industries increased 1.5 per cent in 2002.

Among goods-producing sectors, the largest increase in employment was posted in the manufacturing sector, which increased by 5.5 per cent. This was in large part due to offshore-related fabrication work. The construction sector was relatively flat in 2002 showing a decline of 1.6 per cent in employment growth as a result of non-residential construction weakness. Housing starts remained strong in the low interest rate environment increasing 21.5 per cent in 2002. The resource industries had small declines in employment levels.

Employment by Goods Industries 2002

(as a per cent of Total Goods Industries Employment)

Services Industries Employment

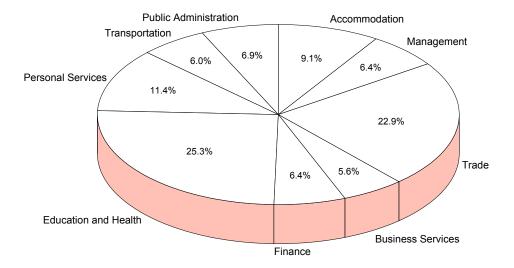

Nova Scotia is predominantly a service-sector economy. Services industries account for 78.0 per cent of Nova Scotia's employment and registered a 1.1 per cent gain in employment in 2002. The educational, health care and social assistance services sector, which is the largest component of the services sector with 25.3 per cent of the employment, reported an increase of 2.4 per cent in employment in health care and social assistance. Educational services had no growth during 2002. The trade sector, retail and wholesale, the next largest sector, represents 22.9 per cent of employment in services. This sector experienced an employment decline of 0.6 per cent in 2002.

Employment growth was concentrated in the business service sector, especially management services, which includes call centres. Offshore development and exploration supported more jobs for the professional, scientific, and technical services sector. A favourable tourism year produced more jobs in the accommodation and food services sector. Strong sales in the real estate markets, plus the construction of more new houses increased employment in the finance, insurance and leasing sector.

Employment decreases in 2002 were evident in the transportation and warehousing sector as weakness in Nova Scotia's exports, which dropped as a result of slack in the United States economy, produced diminished demand for transportation services. The information, culture and recreation sector also experienced a minor decrease in employment, while public administration employment levels dropped by 10.8 per cent in 2002.

Employment by Service Industries 2002
